SECURITY WITH CHARGING FUNCTION

Battery charging and laptop cabinets from LISTA
STORAGE AND CHARGING
FOR LAPTOPS AND MORE

Electro cabinets from LISTA are perfect for secure, personal storage of all kinds of battery-operated devices. These robust all-rounders are ideal for offices and administration, schools, universities and other public buildings. Thanks to the integrated power supply, battery-operated devices can be charged during storage and are then once again ready for immediate use.
PRACTICALLY UNBEATABLE
LISTA battery charging and laptop cabinets in use

A functional and versatile storage solution, battery charging and laptop cabinets from LISTA are used in numerous applications, from industry to public facilities. With their wide range of designs and their space-saving dimensions, they can be flexibly adapted to the most varied spaces and requirements.

The integrated power supply enables fast, convenient charging of the devices locked in the cabinets, thus providing an optimal solution for today’s personal storage requirements.

Examples of use

- notebooks and smartphones
- tablets and e-book readers
- headphones and portable speakers
- digital and SLR cameras
- fitness trackers and smart watches
- e-bike batteries
- cordless drills and hammers
- cordless saws and grinders
- battery-operated hydraulic devices
Wide range of uses
with charging options for battery-operated electrical machines, notebooks, tablets, smartphones or e-bike batteries

Wide range of specifications
with sockets, RJ45 network sockets and USB interfaces

Secure locking option
with different locking systems for optimal protection against unauthorised access

Outstanding safety features
through full CE compliance

Sophisticated ventilation
with optimal air circulation thanks to ventilation holes at the front and back
BATTERY CHARGING CABINETS
with hinged doors

Electrified LISTA cabinets with hinged doors are perfect for the centralised supply of rechargeable batteries and electrical devices. All cabinets can be configured individually and adapted to your specific storage needs through the flexible use of partition material, cabinet accessories and power supply via power strips. The hinged doors are available in full sheet steel or equipped with viewing windows.

For colour information, see last page. When ordering, enter the required three-digit colour code (instead of XXX).

Locking systems for hinged door cabinets

When ordering a cabinet from these two pages with CODE or RFID Lock, please add the suffix „C“ or „F“, respectively, to the article number stated in the table (e.g. 62.954.XXX.C).

* Power strips CH: 4-socket with 1 thermal fuse
** with residual current protective device (16A/30mA) and miniature circuit breaker (CH = 10A, D/F = 16A)
LISTA battery charging cabinets are designed for the secure storage of items and devices such as smartphones, tablets and e-bike batteries. Through the use of cabinet accessories, partition material and different energy modules, all cabinets can be configured individually and adapted flexibly to your specific storage needs.
