

Given the legally required 10 year storage period for tissue samples, security and perfect organisation are the top priorities.

Lista Case Study

Customer: Oberwart Pathology Department, Graz (Austria)
Industry: Forensic Technology Institute / Healthcare
Products: Drawer cabinets
Main purpose: Secure storage under ideal conditions of tissue samples

Perfect storage of tissue samples A smart and attractively priced solution

In close collaboration with the pathology department in Oberwart, Lista developed a drawer cabinet which meets the stringent requirements for perfect storage of tissue samples. And with a much-reduced cost of investment.

Solution number 1

Storage of plastic tissue containers – using the new divider material for the Lista standard 54 x 36 E drawer

For the storage of tissue samples in standard plastic containers, Lista developed a special divider material which can be used in standard Lista drawers (100 mm or 150 mm height) size 54 x 36 E. Thanks to the use of standard Lista products, the cost to the Oberwart Pathology department of this investment was substantially reduced.

Solution number 2

Use of standard containers for glass mounted tissue samples – using the new Lista special 54 x 36 E drawers

Standard glass slides for mounting tissue samples are a perfect fit in the drawers specially developed by Lista (100 mm height) in size 54 x 36 E. Of course, in this solution as elsewhere, the whole volume of the cabinet is made use of, while guaranteeing safe storage. And using the Lista Script software and labelling options with the special drawers makes it easier to find everything.

i Benefits

■ Low initial purchase costs

The Lista solution is substantially cheaper than the purchase of the normal kind of specialist medical product normally used in a pathology or clinical institution.

■ Greater storage capacity

Thanks to their compatibility, when more storage is needed the drawers can also be used in Lista drawer cabinets, which means that vertical space up to 3 m high can be used efficiently and economically.

■ Triple locking

With Key Lock (standard locks), Code Lock (digital locking system) and Remote Lock (manual radio locking) Lista is the only manufacturer to provide three different locking options.

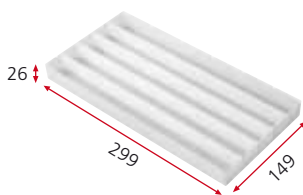

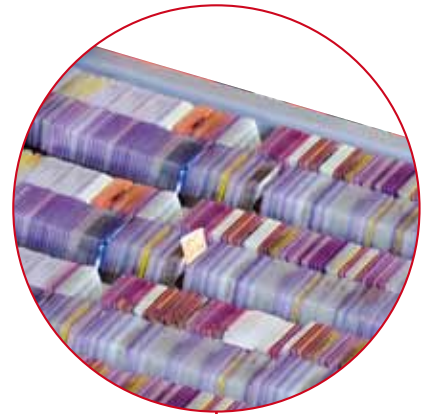

■ Simple labelling on the handles

Using the free Lista Script labelling software you can professionally label the drawer handles at minimal cost.

Using the Lista drawer cabinets (150 mm height) the available space is used 100% efficiently.

Example volumes:

36 spaces per drawer (in 3 layers) x
6 drawers per cabinet
= 216 plastic containers per cabinet

either 2 or 3 layers can be used

the available depth is adjusted to match

Solution number 1

Solution number 2

Product description			
Product		Drawer cabinet for storage of plastic tissue sample containers	Drawer cabinet with special drawers adapted to hold standard containers for glass-mounted tissue samples
Housing			
Footprint W x D	mm	1023 x 725 (54 x 36 E)	1023 x 725 (54 x 36 E)
choice of heights (clear heights)	mm	700 / 850 / 1000 / 1450 (600 / 750 / 900 / 1350)	700 / 1000 (600 / 900)
Body colour		12 standard colours	12 standard colours
Painting process		Impact and abrasion-resistant surface thanks to environmentally friendly powder coating	
Material		Very high load-bearing capacity thanks to a precise and stable construction, made from high quality welded sheet steel	
Lock			
type		Key Lock / Code-Lock / Remote-Lock	Key Lock / Code-Lock / Remote-Lock
Drawers			
Art. no.			340.484.XXX (Price on request)
compatible Lista units		36 x 36E / 45 x 36E / 54 x 36 E	54 x 36 E (special depth)
Usable area W x D	mm	612 x 612 / 765 x 612 / 918 x 612	918 x 619
Front height (usable heights)	mm	2-layer version: 100 (82.5) 3-layer version: 150 (132.5)	100 (82.5)
Pull-out type		Full extension (75 or 200)	Full extension (75 or 200)
Front colour		12 standard colours	12 standard colours
Internal paint		Total cover corrosion protection using electrophoretic immersion painting, dove grey, NCS S4502-B	
Drawer material		Very high load-bearing capacity thanks to a precise and stable construction, made from high quality welded sheet steel	
Other features		Individually locking drawers with safety catch, efficient usability thanks to 100% use of available volume and freely definable partitioning	
Partition material			
Art. no.		80.345.000	normal commercial glass mounted tissue sample containers
capacity per drawer		contents 36 per drawer (in 3 layers) when completely full	
Warranty			
10 year warranty, GS-certificate (safety tested), can be extended at any time as items come with guaranteed availability for 10 years
