ALL IN ONE HAND!

CONSULTANCY AND PLANNING

Whether warehouse or workshop, assembly, production, break room or office – whatever you need to set up, we provide you with comprehensive and professional support from planning to after-sales service. Planning a larger project? We'll be happy to advise you personally, jointly analyse your individual requirements and visualise your new furnishing system using our planning software. Assembly and maintenance are also part of our service. At LISTA, you get everything from a single source – and always the optimal workplace for every challenge.

WORKBENCHES

The workshop equipment from Lista AG is specifically designed to meet the demands of modern automotive workshops – robust, functional, and modularly expandable. High-quality workbenches, drawer cabinets, and system solutions ensure optimal workflows, maximum organization, and ergonomic working. With durable materials, a well-thought-out storage concept, and customized planning, Lista offers a long-lasting furnishing solution that visibly enhances efficiency and professionalism.

STORAGE LIFTS

Less is more – this clear principle also applies to modern warehousing. Fast access and minimal space requirements give your company a clear competitive edge. Automatic storage lift systems from LISTA help make your processes even more efficient. They ensure optimized space utilization, time savings, inventory control, and ergonomics. Variable in height, width, and load capacity, LISTA lift systems can be flexibly adapted, controlled, and networked to meet your specific requirements. You benefit from proven LISTA quality, expertise, and service from one of the world's leading system providers – and always choose a reliable solution you can trust.

SHELVING SYSTEMS

Our universal shelving system L1006 impresses with its versatile usability, high load capacity, and easy assembly. Thanks to its well-designed plug-in system, it can be flexibly expanded and adapted to individual storage needs. Robust steel components and durable corrosion protection ensure a safe and long-lasting storage solution.

LOCKERS

Lista's locker cabinets stand for maximum stability, well-thought-out functionality, and long-lasting quality. With individually configurable interior fittings and a robust sheet steel construction, they meet the highest demands in industry, workshops, and public institutions. Modern design, ventilation concepts, and a wide range of colour options also ensure an attractive appearance and optimal room integration.

TYRE STORAGE

The tyre storage systems from Lista AG offer a safe, space-saving, and clearly arranged solution for storing tyres and wheels. Thanks to their flexible modular design, a wide variety of tyre sizes can be optimally accommodated.
